POWERFLEX ECO

Speedo's PowerFLEX Eco is an innovative and earth-friendly fabric that is made using Econyl,[®] a nylon yarn that is 100% regenerated from other nylon products at the end of their lifecycle. Speedo has partnered with Aquafil, Econyl's parent company, to create a program that regenerates all the waste scraps that are left over from our PowerFLEX Eco suit production. To date, we've prevented around one ton of Econyl scrap from going into a landfill or being incinerated.

A little less waste in the world is good for us all.

FABRIC TECHNOLOGY

The fastest aquatic creatures have one thing in common: sleek, durable skin that lets them slice through the water. Following their lead, we've developed revolutionary fabrics that feature exclusive Speedo innovations.

LZR PULSE+
LZR Pulse+ fabric featured in the LZR Racer X and LZR Racer Elite 2, offers a 40% increase in durability of water repellency as well as delivering powerful body compression, optimizing hydrodynamic form in the water for maximum speed and performance.

LZR PULSE LITE
LZR Pulse Lite is featured in the LZR Racer X, provides the most compression while allowing maximum range of movement. It is water repellent, chlorine resistant, and super-quick to dry.

AQUABLADE
AquaBlade features water-channeling stripes that reduce drag. Constructed of a durable poly-Lycra® blend that's great for team and competition use.

POWERPLUS
Lightweight and quick drying. PowerPLUS compression technology increases muscle support for additional power and decreased recovery times.

SPEEDO ENDURANCE
Our new Endurance fabric is designed for swimmers at every level. Designed to last far longer than conventional swimwear fabric, our chlorine-resistant Endurance fabric resists pilling and boasts incredible shape retention. With a softer, yet substantial feel, it's a great choice for practice, training and fitness workouts.

SPEEDO ENDURANCE+
Maximum Chlorine-resistant fabric designed to last far longer than conventional swimwear. Endurance+ retains its color and shape.

POWERFLEX ECO
An innovative and earth-friendly fabric that is made using Econyl® a nylon yarn that is 100% regenerated from other nylon products at the end of their lifecycle.

PRO LT
This poly spandex blend is the perfect choice for swimmers in the water 2-3 days a week, providing support and comfort at a great value.

COMPETITIVE BACKS

With over seven different performance suit backs to choose from, you can find the perfect mix of function and fashion for your performance and training needs.

SPEEDO FLYBACK
